FIT GUIDE

BIKE

PRECISION

Sprint Ultra will lead the charge and set the bar for the TLD PRECISION Fit category. Sprint Ultra will be positioned as our premium gear collections targeted at serious racers. Talking points will be Ultra lite technology with ergonomic fit which includes strategic stretch paneling. Additional tech features will include IQ Smart Temp Technology which controls body temp while riding.

RACE EVERYTHING

Sprint is the ultimate combination of performance and durability that will lead the charge and set the bar for the TLD RACE EVERYTHING category. SPRINT bridges the gap between Sprint Ultra and Skyline gear. Although Race EVERYTHING fit is inclusive of our Athlete driven racewear, we will also focus on the durability, with high level of stretch and performance.

RIDE EVERYTHING

Drift, Skyline, Ruckus, and Flowline will be positioned as our RIDE EVERYTHING category which is targeted at anyone who throws a leg over a bike. Ride Everything Styles generally have the highest durability and protection in the TLD gear line and is "multi-functional" as it will be aimed at recreational Park riders along with trail riders.
